

Critical Issues - Lesson Plan

Unit: 2 - Economics	Specific Topic: Industrial Revolution
URL (*Note: Lesson procedure can be found here): http://www.oxfam.ca/news-and-publications/educational-resources/lesson-plans/TheIndustrialRevolutionSixLessonPlans.doc	
Lesson Description: This is a series of six lesson plans which are intended to give students the outlet to form opinions about the advantages and disadvantages of the current model of globalization. Students will also be able to draw comparisons between the Industrial Revolution and modern globalization.	
Curriculum Outcomes: <u>Grade 10</u> - Know that the beliefs and values of a society will affect its social and political organization which in turn will affect its economic organization.	
Assessment: - See lesson procedure for possible assessment opportunities.	Materials: - See lesson procedure for list of required materials.
Procedure: - See the website URL for all six lessons.	
Extension Resource: For further information on Global Citizenship Education (GCE) and additional resources, see <u>SCIC's Global Citizenship Education Modules</u> .
