

Critical Issues - Lesson Plan

“Getting Better When I’m Sick”

Unit: Number	Specific Topic: HIV/AIDS; Poverty
URL: http://www.freethechildren.com/wp-content/blogs.dir/4/files/2012/09/Full-Lesson-Plan32.pdf	
Lesson Description: This lesson uses math problems to explore how poverty, underdevelopment, and illiteracy contribute so much to the spread of HIV/AIDS.	
Curriculum Outcomes: Grade 8 Outcome - N8.3: Demonstrate an understanding of rates, ratios, and proportional reasoning concretely, pictorially, and symbolically.	
Materials: - War Within Questions PDF - War Within Answers PDF	
Procedure: See <i>Math That Matters: War Within</i> (p. 76)	
Extension Resource: For further information on Global Citizenship Education (GCE) and additional resources, see <u>SCIC’s Global Citizenship Education Modules</u> .
